Hahn's Peak

This part of the National Forest abounds in the lore of early day settlement and mining. Remember to respect the property rights of residents, and leave the historical remnants as you find them. If in doubt as to whether a particular site is public or private, check with the nearest District Ranger.

Some Points To Remember

Although fire is recognized as an important part of some forest ecosystems, careful fire use habits are still vital if serious damage to trees, wildlife, and water are to be avoided. Whenever possible, use the fireplaces in recreation areas provided by the Forest Service. Always put your fire "dead out"—with lots of water and stirring, even if you plan to be gone for only a short while.

You can help the Forest Service and reduce recreation cleanup costs by "packing your trash" out with you. Never litter, and don't bury your trash; bears or other animals will dig it up and scatter it.

Motor vehicles are restricted in some areas, and are strictly prohibited within Wilderness units. Ask the nearest Ranger for a "Travel Map" if you plan to travel by trail bike or four wheel drive vehicle off the popular roads. These maps explain restrictions and use seasons, and provide other helpful information.
